**[EXTERNAL EMAIL]**

To All El Paso de Robles City Council members: Please include as Public Comment in the Agenda Addendum item C2 for today's meeting.

Eliminate the parking program entirely.

I was one who stood up and commented last year about eliminating the parking program. John Hamon who, at the time, was accountable to his 1st district constituents ignored most or all of our comments. Ms. Roden, who was placed without a vote, now ignores the constituents she is supposed to be representing.

Please listen loud and clear: The parking program is inefficient, loses too much money, is not approved by the voters of El Paso de Robles and I believe illegally taxes We The People who live in the community.

I believe if/when we follow the money; we will find someone in the City Manager's office or, even council members are somehow benefitting from this parking program and illegal taxation.
