April 18, 2023

CITY OF PASO ROBLES

Judy Pollock Hallam

[REDACTED]
Paso Robles, CA 93446

To Whom it May Concern:

We appreciate the recommendation that the hazardous Coast Live Oak on Locust Street near 18th street be removed.

The removal of this ancient oak tree will dramatically alter the environment of Locust street's landscape.

In recent storms, a large Live Oak tree fell across the street. This has altered the environment of Locust Street.

New Coast Live Oak trees have been recommended to replace the removal of the tree on Locust Street near 18th street.

We kindly ask that the new Coast Live Oak trees be planted on Locust Street near 18th street, near to where the Coast Live Oak tree will be removed.

Thank you.

#6. Approval of Oak Tree Removal Permit 23-02 (204 18th Street – City Initiated)

Dwayne Brown, Maintenance Services Superintendent

CEQA Determination: The City finds that this action is not a project under the California Environmental Quality Act pursuant to State CEQA Guidelines, § 15304 for minor alterations to land.

Recommendation: Approve Resolution 23-XXX, approving OTR 23-02, authorizing the removal of a hazardous Coast Live Oak and replacing it with 3 24-inch box Coast Valley Oaks on public property.
